

The Commonwealth of Massachusetts

Department of Public Safety

Massachusetts State Building Code (780 CMR)

Building Permit Application to Construct, Repair, Renovate or Demolish any
Building other than a One- or Two-Family Dwelling

Code and Other Requirements for Building Permits

The Department of Public Safety has issued these building permit application forms so that municipalities across the state can move toward use of a single permit form and consistent permit application process. The MA State Building Code specifies the requirements of building permits and the applicant is advised to review and be familiar with these requirements in order to avoid some of the common permit application problems. Likewise the applicant should be aware that some municipalities require that the owner confirm, even prior to acceptance of the building permit application, that no outstanding property taxes, water fees, etc. exist.

Filing Instructions

1. Please contact the city or town where the work will be done to ensure that the city or town will accept this application form and if any additional information is required, and obtain the correct mailing address. After doing so, print the application, fill in completely and then submit to the local city or town where the work will be done.
2. All applications shall be considered complete and will be reviewed if construction documents, specifications, fee, and other materials that may be required as indicated in the Building Permit Application are included with the application.
3. Please include a check for the Building Permit fee. The fee may be calculated using the information to be supplied in section 12 of the Building Permit Application. The check is to be made payable to the local city or town where the work will be done.
