If **you test positive** for COVID-19

→ Isolate

Isolate means the following:

→ Stay home for 5 days

If you have a fever, continue to stay home until your fever resolves,

And if you have no symptoms or your symptoms are resolving after 5 days, you can leave your house,

However, continue to wear a mask around others for 5 additional days

If **you were exposed** to someone with COVID-19 and you are boosted or completed a primary series vaccination, and

If you have been boosted,

Or with six months, you have completed the primary series of Pfizer or Moderna vaccine,

Or within 2 months, you completed the primary series of J&J vaccine

→ Quarantine

Quarantine means do the following:

→ Wear a mask around others for 10 days

→ Test on day 5, if possible

→ Get a test If you develop symptoms at any time

If you were **exposed** to someone with COVID-19, you are **not boosted**, and in one of these groups

Pfizer or Moderna vaccine was received over 6 months

J&J vaccination was received over 2 months ago

Unvaccinated

→ Do the following

→ Stay home for 5 days

→ Wear a mask around others for 10 days

→ Get a test If you develop symptoms at any time
